Bangalore -560 034

**Sub : Submission of Six months Compliance Status Report – 1<sup>st</sup> Half as on 30.09.2024**  
**Ref : 1. EC MoEF letter No.J-11011/541/2010-1A-II(i) dated 16.12.2011**  
**2. Combined Consent order No.AW 334464/PCB ID 10456 dated 19.11.2022**

Dear Sir,

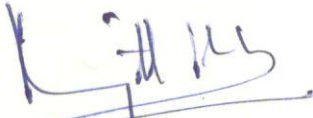

With reference to the above, we are submitting herewith the six months Compliance Status Report – 1<sup>st</sup> Half as on 30<sup>th</sup> September,2024 of Integrated Cement Plant of 6.0 MTPA in two phases (each of 3 MTPA) & Captive Power Plant of capacity 60 MW & 30 MW at village Bankur, Tehsil Chittapur, Dist. Kalaburagi (Karnataka) for your kind perusal.

Please acknowledge receipt of the same.

Thanking you,

Yours faithfully,

**For Jaypee Cement Corporation Limited**

(Manjunath Prabhū)  
Authorised Signatory

Encl : 2 Nos. Annexures (total 6 pages)

Copy to : The Scientist E & Incharge, Zonal Office, CPCB, Bangalore  
: The Chairman, KSPCB, Bangalore  
: The Regional Officer, KSPCB, Gulbarga

JCCL/JSCP/MoEF/KSPCB/ 2023-24/

Name of Project: Jaypee Cement Corporation Limited - Integrated Cement Plant of 6 MTPA in two phases (3 MTPA each) with 30 MW CPP-Phase-I, and 60 MW CPP Phase-II at Village Bankur, Tehsil Chittapur, Dist. Gulbarga, Karnataka

Proposal No.:IA/KA/IND/5553/2011  
Category: Industrial Projects-1

Clearance letter No. : J-11011/541/2010-IA. II (U) DATED 16.12.2011 Period of Compliance Report: April 2024 To September, 2024  
PARA - 11A

Sl.No.	SPECIFIC CONDITIONS	COMPLIANCE STATUS
i	Continuous stack monitoring facilities to monitor gaseous emissions from all the stacks shall be provided. The limit of PM shall be controlled within 50 mg/Nm <sup>3</sup> by installing adequate air pollution control system. ESP to Clinker Cooler, captive power plant; Bag house to raw mill/kiln and bag filters to coal mill etc. shall be installed to control the particulate emissions.	Complied. Continuous stack monitoring systems are installed. ESP installed in CPP & Bag house to Cement mill to control limit of PM within 30 mg/Nm <sup>3</sup> .
ii	Possibilities shall be explored for the proper and full utilization of gases generated from the kiln in waste heat recovery boiler and a feasibility report shall be prepared and submitted to the ministry and it's Regional Office at Bangalore within 3 months from the date of issue of the letter.	<i>Cement Grinding unit is not in operation since Nov 2015 and CPP is under shutdown from June 2016</i> Complied. Letter reg. utilization of gases generated from the kiln and waste heat recovery boiler submitted to Scientist- F, MoEF & copy to Bangalore office vide Letter No 06 dtd 14-02-2014
iii	The National Ambient Air Quality Standards issued by the Ministry vide G.S.R. No. 826 (E) dated 16 November, 2009 shall be followed.	Complied.
iv	Secondary fugitive emissions shall be controlled and shall be within the prescribed limits and regularly monitored. Guidelines/Code of Practice issued by the CPCB in this regard should be followed.	Secondary fugitive emissions is maintained within the prescribed limits, as per guideline/code of practice of CPCB. Water sprinkling is carried out & Concrete roads are being made.
v	Efforts shall be made to reduce impact of the transport of the raw materials and end products on the surrounding environment including agricultural land. All the raw materials including fly ash should be transported in the closed containers only and shall not be overloaded. Company shall have separate truck parking area. Vehicular emissions should be regularly monitored.	All the vehicles involved in transportation of raw materials and end product are transported in bulkers & covered vehicles and regularly being monitored for emissions. Separate truck parking area is available.
vi	Fly ash shall be utilized as per Fly Ash Notification 1999 subsequently amended in 2009. Fly ash shall be stored in ash silo & 100% used in the cement manufacturing.	Maximum quantity is used in manufacturing Cement (PPC). Surplus flyash is given to nearby cement plants, flyash brick manufacturers through closed containers.
vii	Water requirement shall not exceed 6000 M <sup>3</sup> /Day. All the treated wastewater shall be recycled and reused in the process and/or for dust suppression and green belt development and other plant related activities etc. No process wastewater shall be discharged outside the factory premises and "zero" discharge should be adopted.	Water requirement is well within the sanctioned limit, water consumption report is being sent to RO, KSPCB on monthly basis the treated waste water is recycled and reused. Plant operates on zero discharge philosophy.
viii	Efforts shall be made to make use of rain water harvested. If needed, capacity of the reservoir should be enhanced to meet the maximum water requirement. Only balance water requirement shall be met from other sources.	Being complied by Rain water harvesting pits. Old mine pits are used as water reservoir for storage of rain water.

Name of Project: Jaypee Cement Corporation Limited - Integrated Cement Plant of 6 MTPA in two phases (3 MTPA each) with 30 MW CPP-Phase-I, and 60 MW CPP Phase-II at Village Bankur, Tehsil Chittapur, Dist. Gulbarga, Karnataka

Proposal No:IA/KA/IND/5553/2011  
Category: Industrial Projects-I

Clearance letter No.: J-11011/541/2010-IA. II (I) DATED 16.12.2011 Period of Compliance Report: April 2024 To September, 2024

ix	Regular monitoring of influent and effluent surface water, sub surface water and ground water should be ensured and treated wastewater should meet the norms prescribed by the State Pollution Board or described under the environment (protection) act whichever are more stringent. Leachate study for the effluent generated and analysis should also be regularly carried out and report submitted to the ministry's regional office at Bangalore, SPCB & CPCB.	Water test reports of the surface water are submitted monthly to RO KSPCB. The plant operates on zero discharge philosophy.
x	All the bag filter dust, raw mill dust, coal dust, clinker dust and cement dust from pollution control devices should be recycled and reused in the process and used for cement manufacturing. Spent oil and batteries shall be sold to authorized recyclers/reprocessors.	Necessary provisions are made in the design of the plant to recycle and re-use the dust in the process. Spent oil generation is very less and being consumed in the boiler of power plant. Batteries shall be sold to authorized re-cyclers/re-processors.
xi	Efforts shall be made to use low grade lime, more fly ash and solid waste in the cement manufacturing.	Fly ash shall be used to manufacture PPC. Based on availability of high grade limestone, low grade lime stone shall be used for blending to manufacture clinker.
xii	An effort shall be made to use of high calorific hazardous waste in the cement kiln and necessary provisions shall be made accordingly.	Feasibility of using high calorific hazardous waste shall be explored after installing & commissioning cement kiln.
xiii	As proposed Green belt shall be developed in at 33% area in and around the cement plant as per CPCB guidelines to mitigate the efforts of air emissions in consultation with local DFO.	Green belt is being developed in phased manner. Total area of plantation is more than 33%.
xiv	All the recommendations made in the Charter on Corporate Responsibility for Environment Protection (CREP) for the Cement Plants shall be implemented.	Accepted. The applicable CREP recommendations shall be implemented.
xv	Occupational safety & health hazard management plan so that such exposure can be kept within permissible exposure level so as to protect health of workers shall be submitted to the Ministry's Regional Office at Bangalore within three months.	Medical checkups are arranged periodically.
xvi	All the commitments made to the public during the Public Hearing/Public consultation meeting held on 25 <sup>th</sup> May, 2011 shall be satisfactorily implemented and a separate budget for implementing the same shall be allocated and information submitted to the Ministry's Regional Office at Bangalore.	The commitments made during public hearing will be satisfactorily implemented and a separate budget shall be allocated. The same has been submitted to the Regional Office vide letter No JCCL/JCCP/KSPCB/2013/ dtd 20-11-2013.
xvii	At least 5% of the Total Cost of the Project shall be earmarked towards the Enterprise Social Commitment based on Public hearing issues and item wise details along with time bound action plan shall be prepared and submitted to the Ministry's Regional Office at Bangalore. Implementation of such program shall be ensured accordingly in	An action plan for proposed social commitment based on public hearing has been prepared and submitted to the Regional Office vide letter No JCCL/JCCP/KSPCB/2013/ dtd 20-11-2013.

SI.No.	GENERAL CONDITIONS		STATUS
xviii	<p>a time bound manner.</p> <p>Provision shall be made for the housing of construction labor within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.</p>	Complied. Presently no construction work is progressing	
xix	<p>The company shall submit within three months their policy towards Corporate Social Responsibility which should inter-alia address (i) Standard operating process/procedure to bring into focus any infringement/deviation/violation of environmental or forest norms/conditions, (ii) Hierarchical system or administrative order of the company to deal with environmental issues and ensuring compliance to the environmental clearance conditions and (iii) System of reporting of non-compliance/violation of environmental norms to the board of Directors of the Company and/or stakeholders.</p>	<p>CSR policy, Hierarchical System and system of ensuring compliances and reporting of non-compliance/violence of Environmental Norms is attached as-(<u>Annexure 1</u>)</p>	
i	The Project authority shall adhere to the stipulations made by Karnataka State Pollution Control Board (KSPCB) and State Government.	Shall be complied.	
ii	No further expansion or modification of the Plant shall be carried out without prior approval of this Ministry	Agreed.	
iii	At least four Ambient air quality monitoring stations shall be established in the down wind direction as well as where maximum ground level concentration of PM10, SO <sub>2</sub> and NO <sub>x</sub> are anticipated in consultation with the SPCB. Data on ambient air quality and stack emissions shall be regularly submitted to this Ministry including its Regional Office and SPCB/CPCB once in six months.	Being complied. Ambient air quality monitoring work assigned to NABL approved Laboratory for carrying out measurements as desired on regular basis. The Ambient Air Quality monitoring was not carried out for reporting period as our plant is shut down since the Yr. 2016.	
iv	Industrial wastewater shall be properly collected and treated so as to conform to the standards prescribed under GSR 422 (E) dated 19 <sup>th</sup> May, 1993 and 31 <sup>st</sup> December, 1993 or as amended from time to time. The treated waste water shall be utilized for plantation purpose.	Complied. Waste water after treatment is used for plantation	

Name of Project: Jaypee Cement Corporation Limited - Integrated Cement Plant of 6 MTPA in two phases (3 MTPA each) with 30 MW CPP-Phase-I, and 60 MW CPP Phase-II at Village Bankur, Tehsil Chittapur, Dist. Gulbarga, Karnataka

Category: Industrial Projects-I

Clearance letter No. : J-11011/541/2010-IA. II (I) DATED 16.12.2011 Period of Compliance Report: April 2024 To September, 2024

v	The overall noise levels in and around the plant area shall be kept well within the standards 85 dBA by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise levels shall conform to the standards prescribed under Environmental (Protection) Act, 1986 Rules, 1989 viz. 75 dB A day time and 70 dB A night time.	Noted. Plant is not operational since 2016,
vi	Proper housekeeping and adequate occupational health programs shall be taken up. Occupational Health Surveillance program shall be done on a regular basis and records maintained properly for at least 30-40 years. The programme shall include lung function and septum analysis test once in six months. Sufficient preventive measures shall be adopted to avoid direct exposure to dust etc.	Shall be complied
vii	The company shall undertake eco-development measures including community welfare measures in the project area.	Shall be complied
viii	The project proponent shall also comply with all the environmental protection measures and safeguards recommended in the EIA/EMP	Shall be complied
ix	A separate environmental management cell with full-fledged laboratory facilities to carry out various management and monitoring functions shall be set up under the control of Senior Executives.	Shall be complied.
x	Adequate fund shall be allocated to implement the conditions stipulated by the ministry of environment & Forest as well as the state government. Time bound implementation schedule for implementing all the conditions stipulated herein shall be submitted. The funds so provided shall not be diverted for any other purpose.	Shall be complied
xi	The regional office of this ministry/ CPCB/KSPCB shall monitor the stipulated conditions. The project authorities shall extend full cooperation to the Officer(s) of the Regional Office by furnishing the requisite data/information/monitoring reports. A six monthly compliance report and the monitored data along with statistical interpretation shall be submitted to them regularly.	Agreed
xii	The project proponent shall also submit six monthly reports on status of the compliance to stipulated environmental conditions including results of monitored data (hard & soft copy) to regional office of MoEF, the respective zonal office of CPCB and the KSPCB. The Regional Office of this ministry at Bangalore/CPCB/SPCB shall monitor the stipulated conditions.	Six monthly reports on status of the compliance have been submitted regularly to R.O. MoEF&CC including results of monitored data (hard & soft copy). Compliance status reports have been submitted regularly to zonal office of CPCB and KSPCB.

Name of Project: Jaypee Cement Corporation Limited - Integrated Cement Plant of 6 MTPA in two phases (3 MTPA each) with 30 MW CPP-Phase-I, and 60 MW CPP Phase-II at Village Bankur, Tehsil Chittapur, Dist. Gulbarga, Karnataka  
 Proposal No:IA/KA/IND/5553/2011

 Clearance letter No. : J-11011/541/2010-IA. II (I) DATED 16.12.2011 Period of Compliance Report: April 2024 To September, 2024

xiii	Project authorities shall inform the regional office at Bangalore as well as the ministry, the date of financial closure and final approval of the project by the concerned authorities and the date of commencing the land development work.	Dates- Financial closure is 05-08-2011, Final approval 26-05-2012 and date of start of land development work 30-05-2012
xiv	No change in mining technology and scope of working shall be made without prior approval of the ministry of Environment and forests. No change in calendar plan including excavation, quantum of limestone and waste shall be made.	There will be no change in mining technology other than described in Mining Plan approved by IBM and its copy submitted to MoEF&CC, New Delhi and RO MoEF&CC, Bangalore.
xv	Measures shall be taken for control of noise levels below 85 dBA in the work environment. Workers engaged in operations of HEMM etc. shall be provided with ear plug/muffs.	Shall be complied.
xvi	Industrial Waste water (Workshop and waste water from the mine) shall be properly collected, treated so as to confirm to the standards prescribed under GSR 422(E) dated 19 <sup>th</sup> May 1993 and 31 <sup>st</sup> December, 1993 or as amended from time to time. Oil & grease trap shall be installed before discharge of workshop effluents.	Shall be complied
xvii	Personnel working in dusty areas shall wear protective devices and they shall also be provided with adequate training and information on safety and health aspects. Occupational health surveillance program of the workers shall be undertaken periodically to observe any contractions due to exposure to dust and take corrective measures, if needed.	Shall be complied
xviii	The project authorities shall inform to the regional office located regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.	Dates- Financial closure is 05-08-2011, Final approval 26-05-2012 and date of start of land development work 30-05-2012
xix	A copy of clearance letter shall be marked to concerned panchayat / local NGO, if any from whom suggestion / representation, if any was received while processing the proposal	Already complied. Submitted to Shahabad Municipality along with necessary fees.
xx	A copy of clearance letter shall be sent by the proponent to concerned Panchayat, Zila Parishad / Municipal Corporation, Urban local body and the Local NGO if any from whom suggestions representations if any were received while processing the proposal. The clearance letter shall also put up on the website of the company by the proponent.	Already complied
xxi	The project authorities shall advertise at least in two local newspapers widely	Already complied (Two News paper advertisements in English

Name of Project: Jaypee Cement Corporation Limited - Integrated Cement Plant of 6 MTPA in two phases (3 MTPA each) with 30 MW CPP-Phase-I, and 60 MW CPP Phase-II at Village Bankur, Tehsil Chittapur, Dist. Gulbarga, Karnataka

Proposal No:IA/KA/IND/5553/2011  
Category: Industrial Projects-1

Clearance letter No. : J-11011/541/2010-IA. II (U) DATED 16.12.2011 Period of Compliance Report: April 2024 To September, 2024

	circulated, one of which shall be in the vernacular language of the locality concerned within seven days of the issue of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the Karnataka State Pollution Control Board and also at website of the Ministry of Environment and Forests at <a href="http://envfor.nic.in">http://envfor.nic.in</a> and a copy of the same shall be forwarded to the Regional office of this Ministry.	Daily" Deccan Herald" and Kannada Daily "Vijay Karnataka" dtd 22-11-2011)
xxii	The environmental statement for each financial year ending 31 st March in Form-V as is mandated to be submitted by the project proponent to the concerned state Pollution Control board as prescribed under Environment (Protection) rules 1986 as amended subsequently shall also be put on the website of the Company along with the status of compliance of EC conditions and shall also be sent to the respective regional office of the MoEF by email	The Environmental Statement for the financial year 2023-24 sent to SPCB vide letter No.JCCL/JSCP/MoEF/KSPCB/2024-25 dated 03.04.2024 submitted on 04.04.2024.
12	The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory	Noted & Agreed
13	The Ministry reserves the right to stipulate additional conditions if found necessary. The Company in time bound manner shall implement these conditions	Noted & Agreed
14	The above conditions shall be enforced , inter alia under the provisions of the water (Prevention and Control of Pollution) Act 1974, The Air (Prevention and Control of Pollution) Act 1981, the Environment (Protection) Act 1986, Hazardous Waste (Management, Handling and trans boundary movement) Rules, 2008 and the Public (Insurance) Liability act 1991 along with their amendment and the rules.	Noted & Agreed

**JAYPEE CEMENT CORPORATION LIMITED  
SHAHABAD**

**Annexure-I**

**SYSTEM OF ENSURING COMPLIANCES AND REPORTING OF NON-COMPLIANCE/ VIOLATION OF ENVIRONMENTAL NORMS**

At all units of Jaypee Cement, the **Environment Management Cell (EMC)**, headed by Vice President/General Manager and supported by a well equipped Environmental Monitoring Laboratory is having qualified & well experienced team of Environmental Engineers/ Scientists. EMC is responsible for the day to day activities related to the monitoring of environmental parameters, compliances of general and specific conditions of Environmental Clearance, maintaining records, data compilation and analysis, obtaining consents, authorization and other statutory permissions of Hazardous Wastes, ground water withdrawal etc. Any non-compliance/ violation of the environment norms are immediately reported to the unit Head, who is directly responsible to the compliances as per the law.

For the internal surveillance of the compliances and to provide technical support in resolving the environmental issues, the company adopts two tier approach, one at Zonal Level and other at the Corporate level to ensure that the units conform to the environmental standards and all other compliances, prescribed by the SPCB/ MoEF/ CPCB.

In case, any minor violation of advisory nature is observed during inspection by the SPCB/CPCB/ MoEF official(s) and communicated in writing to the plant, it will immediately be reported to the Unit Head and will be rectified through concerned departmental head. In case of major non compliance/ violation of the environmental norms or any Notice/ Direction under Section 31 A of the Air (Prevention and Control of Pollution) Act 1981 under Section 33 A of the Water (Prevention and Control of Pollution) Act 1974 under Section 5 of the Environment (Protection) Act 1986 received, is immediately reported by the Head, EMC to the Unit Head, Zonal Environmental Head, President/ Head Corporate Environment group. President / Head Corporate Environment group reports this matter to the Managing Director, Executive Chairman and to the Board of Directors of the Company. He is fully responsible for the implementation of all the decisions of the Board, related to the statutory compliances to the environmental regulation and overall improvement of the green image of corporate environment.

**ECO DEVELOPMENT MEASURES TAKEN BY JAYPEE SHAHABAD CEMENT PLANT**

Jaypee group believes that harmony between the man and his environment is the prime essence of healthy life and living. The sustenance of our ecological balance is therefore of paramount importance. The Group recognizes its joint responsibility with the Government and the Citizens to protect and preserve the environment.

Practicing the principle of "Inclusive Growth", following eco-development measures are being implemented at various stages of implementation

**1. SOIL CONSERVATION**

Entire cement plant has been constructed on infertile land outside the reserved forest. For construction of plant and facilities in no case top fertile soil has been scarified. Rocky terrain had been leveled off for foundations for P& M, Offices & Buildings without any extraneous matter, with the help of excavator /grader only.

**2. GREEN BELT DEVELOPMENT.**

The Company is raising plantation in an area of 45 acre in plant boundary area in a phased manner which is 34% of the total land belonging to the project. Plantation is being developed in following manner:

Sl.No.	Form of Plantation	Description
i	Strip plantation	All around the project boundary 3 rows of saplings planted to form a greenbelt, Preference is given to fast growing species including locally dominant species such as Teak, Dubai, Neem, Shirsh, Chiddi, Amia, Sitafal, Jamun, Badam, etc.
ii	Avenue plantation	Parks of township, admin. Building, temple area, either side of internal roads
iii	Block plantation	Waste lands around facilities being developed

Greenbelt development in the form of above described manner will serve following purposes:

- i. Increase in fresh Oxygen supply and
- ii. Acting as carbon sink thereby combating global warming through reduction in CO<sub>2</sub> emissions.
- iii. Improving microclimate, contributing to cooling effect and improve green cover in the surrounding areas improving QOL (Quality of Life) with increase in lung space and promoting healthy lifestyle.

Additionally these tree groves will reduce soil erosion, help in enhancing groundwater recharge and create a sound barrier between plant and surrounding areas.

**3. WATER CONSERVATION**

To put least thrust on natural sources of Water, Company is adopting best possible approaches to conserve water, which can be witnessed as:

- i. Construction of STP to maintain **Zero Waste Water Discharge**- all type of treated water will be utilized for specific purposes like plantation, dust suppression etc.
- ii. Installation of air cooled condenser for CPP, in place of conventional large size Cooling towers.
- iii. Implementation of Rain water harvesting proposed for Township & Plant area.

#### 4. SOLID WASTE MANAGEMENT

Following strategy is being implemented to handle solid waste of all kinds either it may be hazardous or non-hazardous:

- Practicing principle of 2 'R's i.e. Reduce & Reuse
- All the waste will be segregated on the basis on degradability/recyclability, than accordingly they will be disposed. Bio degradable waste from township & plant area will be composted and the manure will be used for horticulture purpose.
- All the hazardous waste will be disposed through the authorized recyclers.
- Maximum possible utilization of Fly ash in production of PPC.

#### 5. USE OF ALTERNATIVE FUEL

- Provision is made for use of PET Coke in the Cement Production, which is otherwise waste end product for refineries
- Provision of combustion of hazardous waste in the kiln design

#### 6. ENERGY CONSERVATION

- Use of CFL in all building and offices
- Installation energy star rated ACs for offices and load centers
- Use of VFD in place of conventional one
- 6-stage pre heater itself is energy saving effort
- Utilization of hot air gases released from kiln
- Installation of VRMs for cement grinding, raw mill & coal mill

#### 7. SOCIO-ECONOMIC BENEFITS

A Development of any kind is said to be biased, if its benefits doesn't passes to rock bottom strata of the society. In this regard JCCL has contributed in following manner:

- Indirect employment to entrepreneurs
- Direct employment to local residents
- Growth of local market in terms of consumables( Domestic & Industrial)
- Fulfilling CSR& commitment made during public hearing.
- Preference to local people for employment.
- Rise in living standards
